

Team Rules

1. Team names must be in accordance with the US Ski & Snowboard Code of Conduct
2. You must be an active (i.e. dues paying) member of MAMS to join a team
3. When a team is declared, a team captain must be identified
4. Teams are responsible for their own membership recruitment and composition (i.e. numbers of members, diversity, etc)
5. Teams can consist of any age/gender mix (due to #6 below)
6. For the purposes of team scoring only, each individual's time will be handicapped based on a modified NASTAR scoring system (details below)
7. Maximum team size is 8 members
8. Scoring for each race is based on best 4 of 8 results for a team
9. If a team has no member start a given race, it will not qualify for team scoring for that race
10. If less than 4 team members finish a given race, ghost times will substitute missing results
11. Ghost times are calculated by the slowest net time of all qualifying team racers plus 30 seconds
12. Only team captains can request additions and/or deletions of team members
13. Team captains can request deletion of team members until the 2nd race weekend of the season
14. Team captains can request addition of team members throughout the season until the maximum limit is reached
15. Team scoring following a race will stand as is for the season regardless of any future team membership composition
16. A racer can only be a member of 1 team at a time

Team Scoring System

The NASTAR handicap system was modified by MAMS to normalize age-bonus time adjustments and provide for both GS & SL scoring.
